**Quality, American-made Aluminum Cabinets**

Dear Valued Customer,

At Aluminum Cabinet Co., we believe in crafting solutions that stand the test of time. Whether you're outfitting a garage, cargo van, or emergency response vehicle, our cabinets are built with one guiding principle: uncompromising quality. From our marine-grade aluminum's strength to our custom designs' precision, we ensure every piece delivers durability, functionality, and style.

Our signature powder-coated finishes, the industry-leading Dura-Latch system, and attention to detail reflect our commitment to excellence. Whether you need a standard size or a custom fit for your project, our cabinets provide unmatched strength and longevity. They're designed to be installed easily and to endure even the toughest environments.

As you explore our range of options, including storage for garages, trailers, and more, know that every product comes with our promise of quality and care. Thank you for considering Aluminum Cabinet Co. as part of your next project. We look forward to build something great for you.

**Kelly O'Toole**

# Industry-Leading Features

## DURA-TOP COUNTERTOPS

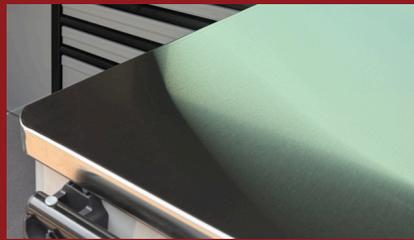

Top off your cabinet with our first-rate countertops. With several options to choose from, you can customize your space to fit the look you're after. Unsure? We'll help you choose the best countertop that best fits your application

### Stainless Laminate

Provides a clean industrial feel while being resistant to corrosion. Ideal for professional and home garages.

### Stainless One Piece

Commercial grade top featuring welded and polished corners, corrosion resistant surface, and easy to clean.

### Butcher Block

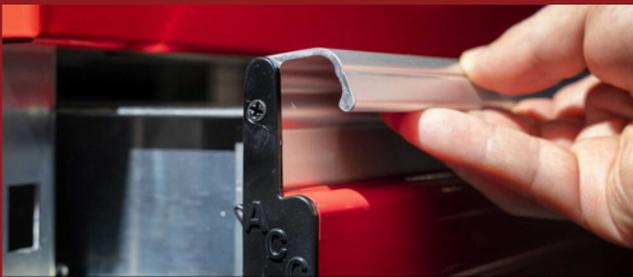

Crafted for both function and style. This 1.5" thick butcherblock top provides a natural surface that's tough for heavy use.

## DURA-LATCH HANDLES

Our Dura-Latch system was developed alongside a University of Minnesota Duluth professor and was designed durability and ergonomics in mind.

### Dura-Latch Drawers

### Dura-Latch Doors

Never worry about your drawers and doors opening unexpectedly. They are designed to stay close and remain closed even down the roughest of roads. We use a custom extruded handle and hinge along with a rugged latch system. Keep your items even more secure with optional locks.

# Forever Features

Standard features that are designed with you in mind

## ADJUSTABLE SHELVES

Shelving is adjustable with internal shelf rails to make the most of your space.

## 250LB SLIDES

All drawers are mounted on 250lb slides for the smoothest operation while holding the heaviest of tools.

## RIGID EXTRUSTIONS

Our custom frame extrusions are designed to handle the most extreme environments.

## GAS SHOCK DOOR OPENERS

Gas shock openers are included on all overhead doors to make your space easily accessible.

# Garages

Any Size, any configuration. You dream it, we design it.

Your garage should work as hard as you do. With our custom aluminum cabinets, your space becomes a high-performance environment that's ready to tackle any task – from daily projects to full-scale builds. Every system is crafted around your workflow, ensuring your garage looks incredible and functions even better.

We take pride in details most people never notice but immediately feel – hidden precision fasteners, a durable powder-coat finish, and anodized frames and handles that stand up to years of real use. The result is a cabinet system that's built to last, engineered to perform, and guaranteed to impress.

Work directly with our in-house design team to turn your ideas into a fully tailored layout that fits your space, your tools, and your goals. From configuration to color selection to final installation guidance, we make the entire process seamless. This level of craftsmanship, service, and customization isn't an upgrade – it's standard for every project that comes through our facility. When you choose Aluminum Cabinet Company, you're not just outfitting your garage. You're investing in a system built for a lifetime of work, projects, and possibilities.

# Transform your garage.

## It's as easy as 1-2-3.

### Ideas become reality!

After your final approval of design, the cabinets are produced with precision to bring your ideas to life and exceed your expectations. Don't just take out word for it:

*"Aluminum Cabinet Company was great to work with throughout this process. We had a vision of what we wanted and the team there met and exceeded our expectations. We compared products from multiple companies and the quality of ACC far exceeded all their competitors. We would not hesitate to recommend them and already have plans for future projects with them."*

# Trailers

The best aluminum trailer cabinets in the industry.

Let's transform your transport. If your trailer needs something extra in the storage department, we're the ones for the job. Our aluminum cabinets are built with the finest craftsmanship and top-of-line tools. Each section is made of 5052 marine grade aluminum, the most corrosion-resistant stuff on the market. Whether it's for racing or utility trailers, our job isn't complete until you're completely happy.

# V-Nose Cabinets

Fully assembled, ready to install

REQUEST A  
QUOTE

Get the most out of your V-nose trailer space with our customized base and overhead cabinets. These cabinets are a great place to house things like inverters, batteries, winches, etc. With our Dura-Latch handle system, you can feel calm knowing your drawers and doors won't open while driving. Unlike kits, our cabinets ship fully assembled and designed to fit your trailer perfectly—ensuring a clean, seamless installation every time.

Choose between a 1/8" 1-pc powder coated aluminum or a 1-pc stainless steel commercial grade counter top. We can modify the side and back splashes for your requirements as well.

## Features

- Designed to fit your trailer, no trimming, just install
- Cabinet and door panels constructed from high quality 0.080" aluminum
- Extruded aluminum frames with an anodized finish for strength and durability
- Double walled doors with bonded 0.040" door back panels
- Full-Length aluminum door hinges for added strength

# Emergency Response

Custom solutions for Mission Critical Performance

When seconds count and every detail matters, your command center must deliver unwavering reliability. You can count on our design team to bring your ideas and needs to reality. Our rugged, precision-engineered aluminum cabinets ensure that essential gear, sensitive technology, and critical communications tools are secure, accessible, and ready when duty calls—day or night.

## Command Centers

At Aluminum Cabinet Company, we don't just build cabinets—we help design the complete command environment. Our in-house design team partners with law enforcement agencies to create layouts that anticipate every demand, from secure storage and technology integration to operator comfort and ergonomics. By accounting for mission-specific needs from the start, we deliver command centers that are as functional as they are durable.

- Collaborative Design Process: Our team works closely with yours to ensure the final command center supports workflows, enhances communication, and keeps teams mission-ready.
- Premium Materials & Craftsmanship: 5052 marine-grade aluminum, extruded frames with clear-anodized finish, powder-coated in standard or custom colors.
- Flexible Storage Configuration: Adjustable shelf rails, drawer kits, and modular form factors adapt to evolving operational requirements.
- Ergonomic & Tech-Ready Integration: Cable routing, cooling vents, and operator-focused layouts that reduce fatigue and enhance efficiency.

Purpose built solutions

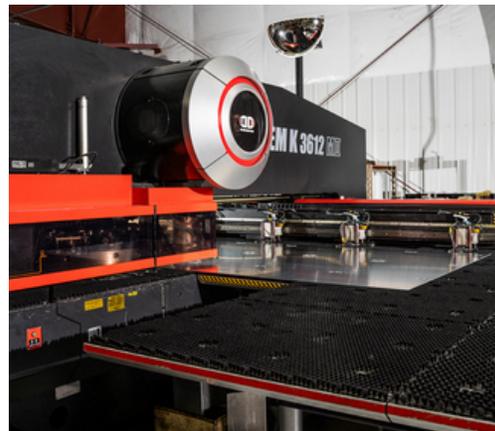

CONTACT US

At Aluminum Cabinet Company, custom solutions aren't an add-on—they're at the core of what we do. Every project begins with understanding your workflow, your space, and your goals. From one-off specialty pieces to full facility buildouts, our team engineers cabinetry that fits with precision and performs with purpose. No matter the size or complexity, we approach every project with the same level of detail, craftsmanship, and communication.

We serve a wide range of industries: motorsports, manufacturing, medical, trades, transportation, and beyond—each with unique demands. Our experience across so many environments means we know how to design for real-world use, durability, and efficiency. Whether you're outfitting a single service van or a 40-bay shop, we deliver custom aluminum solutions that elevate your workspace and stand the test of time.

When you're ready to bring your project to life, our in-house design team is here to help. We make the process simple, share your ideas, a sketch, or even just the problem you're trying to solve, and we'll work with you to create a layout that fits your space perfectly. From the first conversation to the final drawing, you'll have a dedicated partner guiding you through every detail. Reach out today, and let's build a custom solution that works exactly the way you need it to.
